White-labeled platform with Apps available for Organization

ADMIN

COMPANY

EMPLOYEE

CUSTOMER

Admin dashboard will include options enabling the admin to add Company, Location and employees and configure their emails to be able to send and receive and manage emails

Company configures the emails of the employees, manages campaign distribution and onboarding/subscription of the customers, knows the outcome of the email sent.

An employee has option to send emails from the customers. The emails can be send individually, or on a list of database available.

Customer - can subscribe for the email on the links provided by the company at different platforms.

Reports of the email outcome, the unsubscribed customers and the subscribed members is viewed giving the analytics and effectiveness of the campaigns

The system manages the subscribers, unsubscribed list of customers for the company. The data hence received gives the company an insight of what possible actions may be taken

Emails can be set for a specific time and period (Eg. Alerts and notifications, Marketing Campaign) to a group of people who may have subscribed for that email.

Receives emails from the company about the product details and offers. News letters, notifications, alerts about events and otherwise.

The data of customers are managed by the system, ensuring that the unsubscribed customers do not receive the email while the subscribed customers do.

Employees can see the reports on emails sent, delivered, and bounced while set an auto responder to email received from the customer for a specific campaign.

Customers can opt out from the subscription list
